27th February 2017

Dear Parents and Carers,

Following the letter sent to you on 9th January, inviting you to attend a presentation about establishing the South East Cornwall Multi Academy Regional Trust (SMART), we are writing to advise you of what we consider to be a significant and important development in this process.

During the last twelve months, the governors of Dobwalls, Landulph and Trewidland Primary Schools and Looe, Liskeard and Saltash Secondary Schools have been keenly involved in putting the structures in place to enable SMART to have a really positive impact on the education of young people in South East Cornwall. This was summarised in a formal meeting on Tuesday 7th February when the governors agreed to join SMART with effect from 1st April 2017. Everyone involved is delighted at the outcome and very much looking forward to the exciting times ahead.

Towards the end of the term there will be a more detailed newsletter sent out letting you know about the many impressive ventures which have already taken place across the SMART schools and those that are planned for the future.

As part of the SMART developments, the Trust Board will be appointing another Director and another Member. Please pass this information on to anyone who may be interested. Further details can be obtained from the Clerk at clerk@smart-trust.net.

Thank you for your ongoing support.

Yours faithfully,

Headteacher

Chair of Governors
